

**Bright Cross Animal Clinic**  
*Pre-surgical Questionnaire*  
**DENTAL**

*The staff at Bright Cross wants to make sure that you have peace of mind while your dog is here for surgery. While everyone realizes that there are some inherent risks to anesthetics, to minimize these risks please answer the following questions about your pet to insure your dog is given the most complete and BEST care possible.*

*Your Name:* \_\_\_\_\_ *Pets Name:* \_\_\_\_\_  
*Phone number you can be reached at after surgery:* \_\_\_\_\_

- |   | <i>Yes</i>               | <i>No</i>                |
|---|--------------------------|--------------------------|
| 1. <i>Has your Dog had anything to eat this morning?.....</i>   | <input type="checkbox"/> | <input type="checkbox"/> |
| 2. <i>Does your Dog have any health concerns that the doctor may not be aware of?.....</i>  | <input type="checkbox"/> | <input type="checkbox"/> |
| <i>Explain:</i> _____   |                          |                          |
| 3. <i>Is your Dog on heartworm prevention?.....</i>   | <input type="checkbox"/> | <input type="checkbox"/> |
| 4. <i>Is your Dog currently on any medications?.....</i>  | <input type="checkbox"/> | <input type="checkbox"/> |
| <i>If yes, please list:</i> _____   |                          |                          |
| 5. <i>To provide the most comprehensive prophylaxis, we recommend dental radiographs, as root abscesses may go otherwise undetected.</i>  |                          |                          |
| <i>Would you like x-rays done as a routine full set? Cost \$79.00....</i>   | <input type="checkbox"/> |                          |
| <i>A partial set (only involved teeth)? Cost \$69.00.....</i>   | <input type="checkbox"/> |                          |
| <i>Or, Not under any circumstances... ..</i>  | <input type="checkbox"/> |                          |
| 6. <i>It is sometimes necessary to extract teeth depending on condition of roots and the tooth itself. Do you authorize extractions if the doctor feels it is medically necessary? Prices vary.....</i>   | <input type="checkbox"/> | <input type="checkbox"/> |
| 7. <i>Pain management will be <u>required</u> after surgery if extractions are needed. Includes medication to administer at home. Cost \$51.00</i>  |                          |                          |
| 8. <i>Would you like OraVet protective coating applied to teeth after cleaning? With regular applications at home, this decreases plaque build-up by 50%...Cost \$24.00.....</i>  | <input type="checkbox"/> | <input type="checkbox"/> |
| <i>OraVet take home kit.....Cost \$29.00.....</i>   | <input type="checkbox"/> | <input type="checkbox"/> |
|   | <i>Accept</i>            | <i>Decline</i>           |
| 9. <i>Due to the risks that are present when undergoing anesthesia, we advise a pre-surgical blood screen to be run prior to surgery to detect conditions that may not be obvious clinically, but could effect your pet while under general anesthetic. Cost \$71.50.....</i> | <input type="checkbox"/> | <input type="checkbox"/> |
| 10. <i>I/D Chip and Registration with surgery – special \$40.00.....</i>  | <input type="checkbox"/> | <input type="checkbox"/> |
